DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I, claims 1-35, drawn to a device for treating a crystal with a liquid, comprising a holder and at least one micro dosage system.

Group II, claims 36-58, drawn to a method for a crystal with a liquid, comprising a step of fixing the crystal without surrounding it with a liquid, and a step of applying micro-drops of the liquid onto the crystal.

There is no technical feature common for the inventions of groups I and II.

Therefore, the unity of inventions is lacking. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

2. A telephone call was made to Mr. Kerry Taylor on 03/12/2010 to request an oral election to the above restriction requirement, but did not result in an election being made.
